

Love your work.

Bloomfield is a fourth generation, family owned company based in the Hunter Valley comprising a number of companies and over 500 employees. The Group's steady growth, international success and humble reputation as "the quiet over-achiever" in mining and engineering has, for over 70 years, been attributable to one key factor - the people.

As part of the Bloomfield team you'll find loyalty, integrity and a real commitment to your safety and wellbeing because we understand ***Bloomfield people make Bloomfield great.***

So if you're an over-achiever who thinks outside of the square, thrives on challenges and relishes success... we invite you to join our team and you too can ***love your work!***

Purchasing Manager

The Bloomfield Group is seeking to employ a **Purchasing Manager** to be based at our **Four Mile** Engineering Operations at East Maitland. The position will be accountable for managing and improving the procurement, logistics, warehousing and supply contract management systems.

The successful applicant will be responsible for:

- ▶ Providing strong leadership to drive a high performance service culture.
- ▶ Developing and maintaining the procurement, logistics, warehousing and supply contract management systems (policy, processes and procedures).
- ▶ Identifying and prioritising key procurement opportunities.
- ▶ Building and developing an appropriately skilled team.
- ▶ Managing the procurement, logistics, warehousing and supply contract management activities.
- ▶ Setting and monitoring annual procurement, logistics, warehousing and contract management performance targets.
- ▶ Building strong relationships with site staff and external suppliers.

Essential criteria:

- ▶ Qualifications in Business or relevant technical field.
- ▶ Exceptional communication, influencing, leadership and change management skills.
- ▶ Extensive experience in strategic procurement, logistics, warehousing and supply contract management.
- ▶ Proven record of achievement through setting direction, motivating, coaching staff and promoting teamwork to deliver business outcomes.
- ▶ Sound understanding of the relevant statutory legislation, standards and guidelines related to materials management.
- ▶ High degree of business ethics and integrity.
- ▶ Highly developed customer services focus.

Desirable criteria:

- ▶ MCIPS or equivalent procurement qualification
- ▶ Experience in an engineering/heavy manufacturing field
